***Inn & Spa at Cedar Falls offers incredible InnTRODUCTION Meeting Package***

Logan, OH USA — The Inn & Spa at Cedar Falls today announced the addition of a new meetings package. This all-inclusive package is designed to introduce first-time meeting guests or leisure travelers who have not used the Inn as a meeting location to the Gathering Place at the Inn & Spa at Cedar Falls. The InnTRODUCTION Meeting Package starts at just \$2,500 for 10 attendees and is being offered at this special InnTRODUCTORY rate, Sunday-Thursday through December 31, 2011, based on availability.

This two-day meeting package is an incredible value and includes meeting space in the Inn's one-of-a-kind Gathering Place meeting facility, offering complimentary wi-fi, state-of-the-art AV and green-build features. Based on 10 guests, additional attendees can be added at a per-person charge. The package includes the following:

- Full day of meeting space on day one
- Full country breakfast for all attendees
- Break-out space (rooftop garden, outdoor patio and indoor spaces available)
- All day snack and beverage service
- Four-course gourmet dinner
- After dinner campfire mixer with s'mores
- Overnight accommodations in an Inn room or cottage
- Day Two: Your choice of half-day zipline teambuilding adventure, featuring Hocking Hills Canopy Tour or an on-property, custom-designed team scavenger hunt
- Does not include tax and gratuity

First-time visitors and seasoned leisure guests will love hosting meetings at the Inn's green-certified meeting facility. With space for up to 50 attendees, the location is ideal for executive or board retreats, think-tanks, strategic planning sessions, team-building and associate retention.

"When you get away from your workplace, it really brings your group together," said Chris Copper, senior director of donor services for Central Ohio American Red Cross. Copper has hosted events at the Gathering Place at the Inn & Spa at Cedar Falls. "Hiking together and seeing the incredible wonder of these deep gorges, 50-foot cliffs and huge waterfalls makes everything at work feel more manageable. In the work environment, there are often competing egos. But at the Inn, we're all on an even playing field. Everyone becomes more engaged, more flexible and better able to find solutions to the complex issues facing our organization."
