USA — The Inn & Spa at Cedar Falls recently announced the addition of a new Warm Bamboo Massage treatment. Starting at just \$75, Warm Bamboo Massage offers guests a much deeper massage experience. During this intense 50-minute therapeutic treatment, the therapist uses leverage and gravity, integrating sliding, rolling, kneading, pivoting, tapping and friction techniques to offer a deeper massage.

For centuries, bamboo tools have been used throughout Asia to ease tired, achy muscles. In fact, in Asian cultures, bamboo symbolizes life energy, strength, prosperity, longevity and fertility. Each tool used in bamboo massage is specifically designed to

work on various parts of the body, including the neck, shoulders, back or legs, and covers a broad area at one time. Warm Bamboo Massage tools afford some of the most effective and enjoyable work on the most troubled areas. The bamboo tools are gently warmed prior to use. Then each bamboo tool's warm, smooth surface slide with ease across the guest's body, including the neck, shoulders, back or legs, melting away tension, anxiety and strain, while creating a deeply relaxing and soothing experience. Bamboo's unique natural combination of strength and flexibility make it the perfect tool for a deep-tissue experience. Some therapists even believe that the crystal patterns in bamboo help restore the body's energy.

"We are getting incredible response from our clients who have tried this new treatment," said Spa Director Randall Wellman. "The use of the warmed tools allows the therapist to work deeper into troubled areas. We can really get in there and offer a more intense therapy with greater pressure, and yet the warmth and soothing surface of the tools makes it really comfortable for the client."
